Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 08 March 2004.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Detailed Action

Amendment

1. This office action is in response to applicant's amendment dated 3-8-04 and this action is final.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-2 and 4 are rejected under 35 U.S.C. 102(b) as being anticipated by U.S. Patent No. 4,577,370 to Kollross.

Referring to claims 1-2, Kollross discloses a method and apparatus comprising, a hollow meat stuffing tube – at 18 and/or 104 and/or 14 and/or 138, on the machine having a first end and a discharge end for extruding emulsion into a natural casing on an outer surface of the stuffing tube, and a textured belt assembly – at 44, 56, 58 or 100,102, mounted adjacent and parallel to the stuffing tube near the discharge end having a continuous belt – at 44 or 102, with a plurality of grooves – at 56,58 or 132,134, that loops around a pair of rollers – see figures 4a-4c and 7-8, wherein the textured belt assembly longitudinally moves the casing about the stuffing tube and towards the discharge end and into the twisting mechanism – proximate 66-68 or 140,142, where

Art Unit: 3643

it is inherent that the clip at 66 or 142 is twisted about the casing – see for example figures 1-8. Further, see U.S. Patent No. 6,146,261 to Bienert et al., which shows the clipping mechanism – at 22-26 in more detail as a twisting mechanism to twist the clips – at 24 and 26 around the casing.

Referring to claim 4 Kollross discloses one of the rollers is mounted on a fixed axis – at 50, such that the textured belt – at 44 is free to pivot about fixed axle – see figures 4a-4e where the belt pivots about the roller – at 46 and axle – at 50.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claim 3 is rejected under 35 U.S.C. 103(a) as being unpatentable over Kollross as applied to claim 2 above, and further in view of U.S. Patent No. 5,085,036 to Evans. Kollross does not disclose both axles are fixed. Evans does disclose both axles are fixed – see for example figure 4. Therefore it would have been obvious to one of ordinary skill in the art to take the device of Kollross and add the axles being fixed of Evans, so as to allow for the device to be securely held in place during use.

Response to Arguments

4. Applicant's arguments with respect to claims 1-4 have been considered but are moot in view of the new ground(s) of rejection. Further, as seen in figures 8b and 8c of the Kollross reference US 4577370 the tube – at 104 is connected and used in conjunction with the tube – at 138.

Conclusion

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

6. Any inquiry concerning this communication from the examiner should be directed to David Parsley whose telephone number is (703) 306-0552. The examiner can normally be reached on Monday-Friday from 7:30 am to 5:00 pm.
